

# TOP 10 YEARBOOK IDEAS

# REMOTE LEARNING

1

**Mask decorating contests!** Who doesn't love contests and everyone is wearing a mask? Why not put them together!

2

Yearbooks have always had "**Guess Who**" pages for Baby photos but now everyone is wearing masks. Can you match the name to the mask?

3

What better way to translate our daily life on video calls with classmates in **Zoom** meetings than to use a yearbook **page template** that is designed to look like a zoom meeting screenshot!

4

Photo days can be challenging, and even more difficult when some of the staff is remote. This year have everyone create a "**Bitmoji Avatar**" of their likeness and use that in the book instead!

5

There are so many **heroes** we can thank for making a remote school year possible. Wouldn't it be awesome to have students design Thank You cards for these people and include their artwork in the yearbook?

6

"**School Life Hacks**" Page to give advice to the freshman class (for high schools) or the Kindergarten class (for elementary schools) about what you wish you knew back then. This is a way to connect the two classes and pass on some wisdom to the next generation.

7

School activities still happen, even from home. Capture students participating in **sports, clubs, art classes and recycling** as part of the school "green team"

8

Let's ask the students some questions. Find out from them how they stay connected with friends; what is their favorite subject for remote learning?

9

It's easy to social distance from a car and everyone loves **parades!** This is an opportunity to capture some photos of the events missing from the school year for Halloween, Christmas, Valentine's day, St Patrick's Day, and any other school specific events

10

**Pie Charts** and **graphs** create beautiful visuals for the yearbook, all it takes is some polls from questions asked from the students regarding their favorite: foods, movies, musicians, social media platform, streaming service, binge-worthy shows, sports, etc.
